Operations Centre, Brackley NN13 7BD, United Kingdom

RE: Senior Support Engineer - 12 Months Fixed Term Contract (Ref CH1951)

Dear Sir or Madam:

Please find attached my application for the position of Senior Support Engineer. I was very excited to find this posting on your website - I believe that I have the skills and expertise to contribute to your team.

I'm a talented and hard-working Engineer with an excellent problem-solving mindset. My education in Chemical Engineering and Computer Science and my thirst for knowledge gives me a broad knowledge base with deep understand of many technologies. My specialties are networking, storage, messaging, coding, and automation.

Much of my career has been in Operations. I pride myself on being able to provide great customer service under tight deadlines, pressure, and stress. It's important to step up during outages and critical incidents, but it's also important to provide reliable, scalable, and secure solutions to prevent outages.

As a car enthusiast and a fan of auto racing, it has always been my dream to work on a Formula One team. As a fan of Mercedes, it would be amazing to be a part of the team; you are consistently at the front of field and only getting better. I greatly appreciate your consideration.

Sincerely,

Adam Salowitz
